Dear Dr. Rajesh Shah

It is an honour to be president of an organisation which is having its annual conference under your esteemed leadership. I can see the hard work of you and your team for success of this team through the correspondence that we had and the brochure.

IMLEA was envisaged by our great friend DR. SATISH TIWARI to bring to foresee the medicolegal problems faced increasingly by our profession and to discuss and enhance our capacity to face them. It also seeks to keep us ever aware of the four principles of medical ethics - **autonomy, justice, beneficence, and non-maleficence.**

AHMEDABAD INDIA'S FIRST WORLD HERITAGE CITY

The 606 year old walled city of Ahmedabad, which was founded by emperor Ahmed Shah, has become India's first World Heritage City. The World Heritage Committee (WHC) of UNESCO announced it at Krakwo, Poland.

"For over 600 years, Ahmedabad has stood for peace, as a landmark city where Mahatma Gandhi began India's freedom struggle. It has stood for unity with its elegant carvings in its Hindu and Jain temples as well as standing as one of the finest examples of Indo-Islamic architecture and Hindu Muslim art.

Ahmedabad has grown into one of the most important modern cities of India. Straddling the Sabarmati river, this prosperous city of six million is a delight for archeologists, anthropologists, architects, historians, sociologists, traders, bargain hunters, and plain tourists.

An exciting combination of traditions and modernism, Ahmedabad captures all visitors with its diversity of places, religious and ethnic communities. It is interesting to see how Indian atmosphere mix with the colonial British influence, how Hinduism, the world's oldest existing religion develops in the globalising world.
